

Thabo Tshabalala

Software Developer

✉ justicethabo21@gmail.com ☎ 0719453921 📍 Cape Town 🌐 <https://www.thabotshabalala.tech>

Summary

Software Developer with hands-on experience building and maintaining enterprise applications using Ruby on Rails, Apollo GraphQL, Python, Spring Boot, Angular, and React. I enjoy solving real-world business problems, improving systems, and building user-focused solutions. I work well in agile teams, take ownership of my work, and I am continuously growing my skills in backend development, APIs, cloud technologies, and system design.

Experience

Pepkor NexTech

Cape Town

Software Developer 1

January 2026-Present

Technologies: Ruby on Rails, Python, Spring Boot, Angular, React, GraphQL, Docker, GCP

- Migrated repositories and CI/CD pipelines for a production application used by Pepkor Properties from GitLab to Harness, adapting existing configurations to support multi-environment deployments.
- Maintain and enhance data-driven internal applications supporting business operations across multiple Pepkor brands.
- Investigate and resolve production issues by diagnosing root causes and implementing effective solutions to restore business functionality.
- Develop new features and system integrations, ensuring reliable data flow between internal applications and external systems.
- Collaborate with business, financial analysts and stakeholders to translate business requirements into reliable, maintainable software solutions.
- Explore and contribute to AI initiatives through the development of AI agents using Google ADK.

CAPACITI - Trending Talent Solutions(Host Placement)

Cape Town

Full Stack Developer Intern

April -December 2025

• **Technologies:** C#, [ASP.NET](#) WebForms, HTML, CSS, JavaScript, SQL

- Developed core employee-manager performance review workflow, including KPI/KPA evaluation screens, ratings, comments, document submissions.
